

Agreement on Thesis Publication of João Rodrigo Olenscki

I have completed my thesis with the Chair of Transportation Systems Engineering with the thesis title "Improving spatio-temporal traffic prediction through transfer learning". To complete my degree, I submitted:

- A printed copy of my thesis for each adviser.
- A printed copy of my thesis for the library of the Focus Area Mobility & Transport Systems.
- A PDF File of my thesis.

Please check one of the following:

- ☐ My thesis does not contain industrial secrets or raw data that are protected by privacy laws. My thesis can be displayed in the library.
- ☐ I have removed all copyrighted materials from the PDF file or I obtained the copyright for those materials. The file can be legally uploaded to the research group's website.
- ☐ My thesis contains industrial secrets that cannot be published at this point. The thesis may be published at a later point starting on _____ [Date]. Until then, the thesis will remain in a locked cabinet of the library that is not accessible to the public. Also, the PDF file cannot be uploaded to the research group's website before this date.
